DIRECTOR'S ANNUAL REPORT
JUNE 29, 2018

The year 2017 – 18 continued the trend of the last few years with the proportion of support from external donors stagnating around 18% as against 64% five years back. A welcome trend noticed recently is the willingness of new donors to provide a grant under a MoU thereby reducing our vulnerability of cash flow. Given the features of our interventions in the domains of healthcare, education and natural resource management, it may not be possible to entirely dis-engage from partnering with government agencies.

The Table 1 below indicates the amount of upfront expenditure Myrada had to incur during implementation of the project pending reimbursement from the concerned donors. While this money is sure to be reimbursed, the actual timing of receipt cannot be forecast with any guarantee.

The problem has somewhat eased with Government departments in the recent quarter.

The financial performance of MPIs – 9 CIDORS and 70 CMRCs for the year 2017-18 is given below. The information in respect of CIDORS/ CMRCs is not based on audited accounts but only on trial balance as of 31.3.2018 reported by the Programme Officers. Over 35 % of total expenditure incurred during 2017-18 was on programmes which were undertaken directly by CIDORS with individual donors. The CIDORS continued the trend of investing on infrastructure to enable them to undertake more and more of programmes independently of head office and play a significant role in their respective districts in the field of rural development.
